

PLAN OF ACTION (SESSION 2021 – 2022)

The following proposals regarding development of the campus were suggested for consideration of the Governing Body.

1. Glass windows in the library stack room be replaced with iron profile sheets.
2. The solar panels be made functional. Necessary action be taken in this regard.
3. The garden area in front of the new building be maintained by regular pruning.
4. The High Mast Tower be made functional with proper earthing work and replacement of bulbs/tubes.
5. The non – functioning bulbs in the garden be replaced.
6. The vehicle stand be shifted from its existing location to the front, near the main gate for convenience of the students.
7. A disabled friendly toilet be constructed.

Note: Any fund received from external agency as donation be utilised for augmentation of infrastructural facilities, if so specified.
